Price List of Ornamental Trees, Shrubs, Plants and Vines

LEONARD COATES NURSERY CO.

Morgan Hill, California

IMPORTANT ANNOUNCEMENT

Our Landscape Department is now in charge of Mr. A. A. Hunt, one of the best trained and most competent Landscape Architects in the United States. He has only recently started to serve the public, having spent over 25 years in charge of various large estates. The first twelve years of this were in England, where collections of trees and plants are very complete, including the natives of California, and the requirements of owners were very exacting.

In order to have a larger field in which to work he came to this country. Seven years were then spent on the Atlantic Coast superintending two large estate; also one year in Seattle, and six near Los Angeles. Most of this was in charge of the Botanical Gardens of the late Arthur Letts, at Hollywood, with the largest collection of plants in this country. Several hundred were imported by Mr. Hunt while there. He is familiar with about 15,000 trees and plants.

The above is a very brief outline of Mr. Hunt's qualifications. To those contemplating the planting of a city lot or a large country estate, it will be found to be a saving in expense and a gain in satisfaction to call him into consultation—even before grades are established. Large sums of money are often wasted in the lack of proper initial co-ordination between buildings, roads and gardens, which results in expensive changes. Drainage and irrigation problems should also be considered at the very start, if the results are to be satisfactory and inexpensive.

The selection and arrangement of trees, plants and lawns are then studied. The owner's ideas are always considered, but care is taken to recommend varieties adapted to soil, climatic and moisture conditions. Style of architecture must not be overlooked in placing walks and shrubbery, and arrangement to give buildings a proper setting after the plants have attained full size.

Charges for these services furnished on request. They are not only reasonable, but are usually found to be an ultimate saving.

DECIDUOUS SHADE TREES

ACER campestre. English Maple.....	M
a. microphyllum	M
a. rubrum. Scarlet Maple.....	L
a. saccharum. Sugar Maple.....	L
a. saccharinum. Silver Maple.....	L
AESCULUS californicum. Buckeye.....	L
AMYGDALUS davidiana. Flowering Almond	M
ASH. See Fraxinus.	
BETULA	M
BUCKEYE. See Aesculus.	
CATALPA bungei.	N
c. speciosa. Western Catalpa.....	L
CRAB, flowering. See Pyrus.	
CELTIS occidentalis. Hackberry, Nettle Tree	M
CERCIS canadensis. Red Bud	M
c. occidentalis. Judas Tree, Red Bud.....	M
CHERRY, flowering. See Prunus.

PERENNIALS FLOWERING PLANTS

Send for special list.

ROSES

*Order by color, or send for special list.
Prices 25c to \$2.50.*

CANNAS

We call attention to our splendid collection of Orchid flowering and decorative Cannas. Price root clumps, 20c each, \$1.50 per 10.

EXPLANATION OF SCHEDULE OF PRICES

8

ORNAMENTAL PRICE LIST

You will note that each variety among our ornamentals is followed by a letter, viz: A, G, N, etc. These letters refer to our price schedule. For instance, after the description of Catalpa bungei, you will find the letter "N." Referring to this schedule you will find "N" 5-6 ft. priced \$2.00 each and \$18.00 per 10. Likewise Fraxinus americana, White Ash, is followed by "L," and has a range from 4-8 feet. You will find under "L" 4-5 ft. 70c each and \$6.30 per 10, 5-6 ft. 80c each and \$7.20 per 10, and so on.

We sell 5 of one kind at 10 rate, less at each rate.

A				N
